

B I O G R A P H Y

Lieutenant David J. Mulholland
Chief Information Officer
United States Park Police

As the Commander, Information Technology & Communications, Lt. Mulholland serves as the Chief Information Officer for the United States Park Police and as an Associate CIO and CTO for the National Park Service. He is vice-chair of the Metropolitan Washington Council of Governments, Police Technology Sub-Committee. He serves on several law enforcement IT working groups and has served on numerous focus groups. He is a primary consultant on law enforcement technologies for the International Association of Chiefs of Police Technology Center and has represented the IACP on several law enforcement data standards working groups. He is the primary consultant for the IACP on the Capital Wireless Integrated Network. He serves as board member for the IACP Law Enforcement Information Management Section and is a frequent contributor to The Police Chief magazine.
