

**Kathy Hill**  
**Senior Vice President**  
**Ethernet and Wireless Systems Technology Group**  
**Cisco Systems, Inc.**

Kathy Hill brings more than 25 years of management, business and engineering experience as Senior Vice President for the Ethernet Systems Technology Group, which comprises Cisco's multi-billion dollar mid-range and stackable switching businesses. Ms. Hill's primary responsibilities include the development and adoption of innovative IP services and Ethernet infrastructure solutions for the enterprise and small and medium-sized businesses.

Prior to joining Cisco in 1997, she was vice president at Ascend, a leading manufacturer of digital switches and networking products for wide area networks. Before that Ms. Hill was assistant vice president of research and development at Newbridge Networks Inc., a leading provider of multiplexors and hardware switches. Ms. Hill also held engineering positions at Hughes Network System, Inc., Magnavox Government & Industrial Electronics, and General Railway Signal, Co.

Ms. Hill holds a Bachelor's of Science degree in mathematics from the Rochester Institute of Technology.
