

Dave Clark

*Director, Product Strategy & Management
Home Entertainment Products, Subscriber Networks
Scientific Atlanta, A Cisco Company*

Dave Clark is Director, Product Strategy & Management, for Home Entertainment Products at Scientific Atlanta, a Cisco Company. He has responsibility for managing and charting the future course of the DVR platform which includes the Explorer® line of Home Entertainment Servers, as well as Multi-Room™ DVR products and the MCP-100 DVR with built in DVD Recorder/Player.

Prior to coming to Scientific-Atlanta in January, 2001, Clark held various engineering and marketing positions at Thomson Consumer Electronics (RCA, GE, and ProScan brands). The last engineering position he held was as Project Engineering Coordinator for DirecTv set-top units. He then moved into product management where he managed various product lines including digital cameras, camcorders, and 19"-36" televisions.

Clark started his career working in the Defense industry for what is now Raytheon, working as a project engineer on weapon and avionic systems for Navy aircraft. He received a Bachelor of Science in Engineering Degree from Purdue University in 1990.
